

HEAT SHRINKABLE SLEEVE. CODES, MARKINGS, PACKING

1 – CODES

the identification code of our products are:

XXX – YYYY – Z – VV - WW where:

- XXX defines the product (ex.: MZA = sleeve manufactured by Zanelli with adhesive type “A”)
- YYYY defines the thickness (in mm.x 10) of the backing and adhesive layer in supply conditions (ex. 1015 = 1 mm. backing, 1,5 mm. adhesive)
- Z defines the shrinkage factor
- VV defines the width of the sleeve in cm. (ex. 65 = 650 mm.)
- WW defines the pipe diameter in inches (ex. 48 = 48” or DN 1200)

2 – MARKING

The sleeve is continuously marked:

- **ZANELLI – ITALY** (manufacturer’s name and origin)
- **MZA** (see XXX at point 1)
- **XXXX(X)**: group of 4 or 5 letters which defined the “traceability code”
- additional personalized marking on the wrapped sleeve are available on request.

3 – PACKING

The sleeve is individually wrapped with the seal patch (pre-applied seal-patch is available on request), packed in plastic bag in cardboard boxes (the number of sleeve in one box is function of the sleeve size), duly strapped, with labels, on wooden pallets (pallet size: 0,8 x 1,2 x 2 meters)

Each cardboard contain the installation instruction sheet (italian and english language)
