

# TRANSPORT EMERGENCY CARD

(ROAD)  
S8112X

Class 8  
PG II  
UN Nr. 2735  
Hi. Nr. 80

## LOAD: CORROSIVE LIQUID ALKYLAMINES, ARYLAMINES AND POLYAMINES

Name of substance(s): ALPAPOX 12114/B HARDENER

- Colourless or coloured liquid with perceptible odour.
- Immiscible or partly miscible with water – Lighter than water.

### NATURE OF DANGER

- Corrosive. In case of contact, it causes severe burns to skin and eyes
- Flammable.
- Vapour, heavier than air, spreads along the ground.
- May form explosive mixtures with air, especially in empty uncleaned holders.
- Heating will cause pressure rise, with risk of explosion.
- Vapour is irritant for eyes, skin or air passages.
- May produce toxic fumes in case of fire. The effect of inhalation may be delayed.

### PERSONAL PROTECTION

- Suitable respiratory protective devices.
- Goggles for a complete protection of eyes.
- Apron, waterproof gloves, boots.
- Bottle containing clean water for eyewash.

### GENERAL ACTIONS BY THE DRIVER

- **Stop the engine.**
- **No free flames. No smoking.**
- **Mark roads and warn other road users.**
- **Keep public away from danger area. Keep upwind.**
- **Notify police and fire brigade as soon as possible.**
- **Necessary equipment: two orange lamps, suitable fluorescent clothing, a pocket lamp, a block for the wheels and four reflecting cones.**

### ADDITIONAL AND/OR SPECIAL ACTIONS BY THE DRIVER

- **Do not take any action if there is a risk for those present.**
- **If possible, use shovel, broom and a collecting container.**
- **Avoid direct contact with substance.**
- **Stop leaks if without risk.**
- **Prevent liquid entering water courses, sewers, basements and workpits. Vapour may create explosive mixtures.**
- **Contain or absorb leaking liquid with sand, earth or other suitable material.**
- **Advise police if substance has entered a water course or a sewer or has been spilt on the ground.**
- **Necessary equipment: lowsparking shovel, broom, plastic or stainless steel bucket, a sack of sand, a drain cover.**

### FIRE (information for the driver in case of fire)

- **Do not attempt to extinguish any fire involving the load.**

### FIRST AID

- In case of contact with the eyes, immediately wash out with plenty of water.
- Remove contaminated clothing immediately and wash the skin with soap and water.
- In case of symptoms apparently due to inhalation or contact with skin or eyes seek medical treatment.
- If inhaled, the fumes produced in a fire may not show immediate symptoms of poison. Keep patient under medical supervision for at least 24 hours. Show this card to the doctor.

### SUPPLEMENTARY INFORMATION FOR EMERGENCY SERVICES

- **Cool with water the container(s) exposed to fire or overheated.**
- **Extinguish with waterspray, foam or dry chemical.**
- **Do not use water jet.**
